## **Memorandum**

DATE: December 6, 2019

TO: MRRSA Commissioners

FROM: Brian J. Brach, P.E., Executive Director

RE: Summary of Executive Director's Report Items

December 11, 2019 Public Meeting

CC: Donald F. Hill, CPA, Finance Officer, MRRSA (via email)

#### Commissioners,

In an effort to streamline discussion at the meeting, below is a concise summary of several matters I would like to bring to the attention of the Board:

- Commencement of Regional Interceptor Assessment: RedZone is scheduled to commence with assessment of the Authority's regional interceptor system on Monday, December 9th. Farmingdale is also participating in an assessment of the Borough's entire local collection system. It is anticipated that field assessment portion will be completed by the end of January 2020.
- Delay of Countryside Lawsuit Hearing: The Authority's hearing has been pushed back to January 2020 and the Board will be updated as appropriate.
- New Payroll Vendor (PrimePoint) as of January 1, 2020: The Authority is switching payroll vendors effective January 1, 2020.

Best wishes for a healthy and happy New Year!

Feel free to give me a call if you have any questions.

Respectfully, Brian ATTACHMENT B

## **Engineering Report for December 11, 2019**

### General

 Howell Township's engineer, Remington and Vernick, has formally engaged the Authority for design of a connection to the MRRSA's 16-inch diameter Route 547 Force Main to provide wastewater service to Soldier Memorial Park. This connection is permitted by MRRSA's Rules and Regulations and the Authority is working with the Township on details of an appropriate connection.

## **Developer Reviews**

Reviews on Agenda: Please refer to the engineering reviews for further details on any projects to be considered on this month's agenda. There are no items to note out of the ordinary.

# nital Improvement Program (Previously Authorized)

<u> 1</u> p	<u>itai improvement Program (Previousiy Authorizea)</u>
	<u>Vehicle Fleet Replacement thru NJEIT</u> : The I-Bank application has been progressing and Public bid documents are being prepared. The Authority received an exemption for environmental review requirements and anticipates receiving another exemption for SED requirements.
	<u>Chemical System Evaluation and "Bioxide" Pilot (Greeley)</u> : The demonstration period has ended and Greeley and Hansen has provided final recommendations, which will be reviewed and ultimately result in overhaul of the Authority's existing chemical feed system. Moving forward there will be collaboration with Wall Township to ensure that odor and corrosion control measures are implemented at Wall's Allenwood Pump Station. This demonstration has successfully provided actionable data useful to proceed with capital improvements to the chemical feed system.
	<u>Evaluation of HQ Complex Buildings (H2M)</u> : Several identified items in addition to the Con. 59 scope require consideration in the short term future (ie: security system, fire system, CCTV, front gate security, etc.). These recommendations will be reviewed and prioritized with the ENGCOM.
	<u>UMPS/HQ Facility Master Plan and LMPS Facility Master Plan (Mott Mac)</u> : The Executive Director has postponed development of these Facility Master Plans until further notice. A Master Plan study is required in order to proceed with individual facility plans.
	Con. 54-MRRSA SCADA Implementation (CME): CME is nearing completion of the design for the SCADA system, which is anticipated to be bid during the Winter 2020. Bid and Construction is anticipated to continue into 2020.
	Con. 55-System Wide MH Casting Replacements (CME): Construction was completed on October 29,

2019. A resolution approving a small change order and completion and closeout of the project is on

the agenda for consideration at the December meeting.

ч	Con. 56-LMPS Pump Rehab and Check Valve Replacements (Greeley): Construction is anticipated to
	commence during late Winter 2020. The Authority is going to realize a significant cost savings in
	purchasing new submersible pumps in lieu of rebuilding the old units, which has been negotiated with
	the Contractor. However, there is a substantial lead time (approx. 16-weeks) for the new equipment.
	Con. 57-UMPS Spare Parts Procurement (Greeley): All bids received on May 7, 2019 were rejected at
	the Authority's June 19 <sup>th</sup> public meeting. The Executive Director and Greeley and Hansen have
	developed a revised scope of work to meet the Authority's budgetary and operational objective,
	approval for which is on the December meeting agenda for consideration.
	Con. 58-Mingamahone PS Improvements (CME): Design of the project and I-Bank financing are
	progressing. The Authority is moving forward with a minor subdivision to acquire more land outside of
	the 100-year floodplain, which will be more conducive to O&M activities. CME and MSSPC have begun preparation of the minor subdivision package and ordered property appraisals. The Board will be kept
	advised of the (minimal) costs associated with property acquisition. Permits are anticipated to be
	submitted to the appropriate agencies shortly.
	submitted to the appropriate agencies shortly.
	Con. 59-Roof and HQ Building Improvements (H2M): Construction has commenced and the
	Authority's Administrative personnel has been relocated to the garage. The Authority's meeting room
	will be unavailable until January 2020. Meetings will be held in the New Garage area in the interim.
	Con. 61-Procurement of Emergency Replacement Parts (Mott Mac): A significant portion of the
	materials have been delivered. It is anticipated that completion and closeout of this project will be
	considered at the January 2020 meeting.
	Can 62A-Dracurament at Comminutar Grinder at the LIMDS (Mott Mac): Mott Macl)anald was
